

REBELS MENACE MEXICAN CAPITAL; READY TO ATTACK

Insurrectos Only Ten Miles
Away and Three-fourths
of Country in Revolt.

DIAZ FACES A CRISIS.

Americans and Other Foreign-
ers Menaced by Mexicans—
Must Hurry Peace Pact.

MEXICO CITY, May 4.—It is the current belief today that even if Diaz and Madero agree on peace within a few days, they may be unable to restore order, and a crisis in the revolution threatens.

The rebels are within a few miles of this city, one detachment of 300 men being at Ajusco, twelve miles out, and several other bands at Contreras, ten miles from the capital.

The capital seems well prepared for an attack from without, but should one break out within there is much apprehension as to the result.

It is freely predicted to-day that unless President Diaz and Gen. Madero get together within twenty-four hours it will be too late. Already there is doubt that Madero can control his own forces in case peace is agreed on. The sentiment of rebellion is too strong in them. Then, no matter what might be agreed on in Northern Mexico, it is believed it will have little effect on the hands in other parts of the republic. Three-fourths of the country is in revolt now.

American's Leaving.
The Diaz Government has to keep most of its forces to protect the capital, and the downfall of the regime would cause no surprise at any time.

Ambassador Wilson and the German Minister called on Foreign Minister de la Barra yesterday and made a vigorous demand for the protection of foreigners in Cuernavaca.

Cuernavaca has been fortified against the rebels, who are said to be marching to attack it.

Many Americans are leaving Mexico as rapidly as they can get out.

Trains arriving at the capital from every direction are filled with refugees. Along the west coast of Guerrero people are fleeing in boats into the port of Acapulco to leave the country. The port is well fortified from land attack.

Bandits Spread Terror.
Disorder of the most extreme type is reported to-day from the States of Sonora, Guerrero, Durango, Coahuila, Puebla, Morelos, and in fact in every State excepting the so-called Federal territory and Oaxaca and Chiapas.

Armed bands are roaming over the country pillaging and murdering where resistance is made. Most of these are repudiated by the actual leaders of the revolution, but their numbers are being augmented daily. It is these men who have committed most of the outrages on foreigners, and the fact that they have robbed French, German, British and Americans, as well as the natives, adds to the gravity of the situation.

Although many promises of protection are made, the Government is unable to keep them. It is regarded as unsafe further to weaken the local garrison here, and the other troops scattered through the country are compelled to concentrate their attention in unbolting the Government in the State

capitals and cannot be utilized to chase the robbing bands.

2,000 Rebels Ready.
Carlos Garmes, a local resident who reached this city from Cuernavaca by automobile, says the situation there is acute. The insurrectos are pressing the garrison closely. He says he was passed through the insurgent lines by the commander, a former acquaintance, and that he learned there are fully 2,000 men within a day's march of the capital. He said that the insurrectos were planning to ambush the 400 men under Gen. Huerta who are marching to the relief of Cuernavaca.

EXPECT PEACE SETTLEMENT TO-DAY

WASHINGTON, May 4.—Official advices from Mexico City received at the White House today state that the Minister of Foreign Affairs, De La Barra, expects a peace arrangement to be signed with the Revolutionary leaders to-day.

It was also declared that the Government anticipates that peace negotiations will be arrived at, through independent negotiations with Revolutionary leaders in the States of Morelos, Guerrero, within the next few days.

De La Barra intimated that special efforts would be made to rush through at least a tentative draft of the peace proposals to-day in order to head off the threatened uprising in Mexico City which otherwise seems inevitable to-morrow.

EL PASO, Texas, May 4.—The first formal meeting of the Mexican Peace Delegates began at 9 A. M. to-day in a grove across the river from the El Paso irrigation dam. The preliminary meeting between Francisco I. Madero Jr. and Judge Francisco Carbajal, late yesterday, at which arrangements for conferences were completed, was entirely amicable.

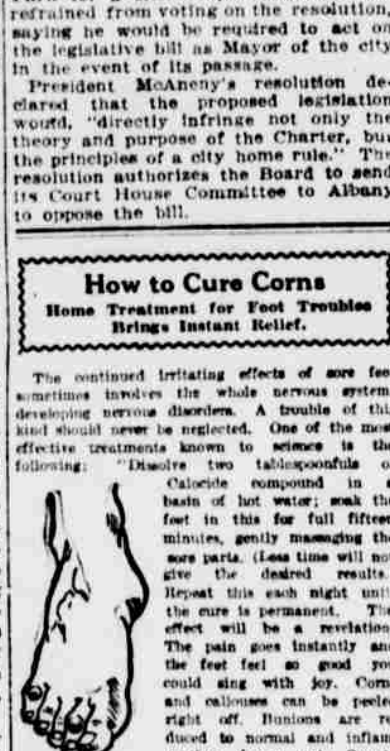

Inasmuch as Judge Carbajal is not authorized to deal with any one but Madero himself, the latter will, of necessity, be the insurgent peace envoy, with his father, Dr. Gomez, and Senor Suarez as advisers. The actual peace meetings are being held secretly, none but the two envoys being permitted within 100 yards of the center of "peace grove."

MAYOR REFUSES TO VOTE.
The Board of Estimate to-day adopted a resolution prepared by Borough President McAneny, opposing the Court-House bill now pending at Albany which contemplates taking a part of City Hall Park for a site. Mayor Gaynor alone refrained from voting on the resolution, saying he would be required to act on the legislative bill as Mayor of the city in the event of its passage.

President McAneny's resolution declared that the proposed legislation would "directly infringe not only the theory and purpose of the Charter, but the principles of a city home rule." The resolution authorizes the Board to send the Court House Committee to Albany to oppose the bill.

How to Cure Corns
Home Treatment for Foot Troubles
Brings Instant Relief.

The continued irritating effects of corns sometimes involve the whole nervous system, developing nervous disorders. A bunion of this effective treatment known to science is the following: "Dissolve two tablespoonfuls of Calceola compound in a basin of hot water; soak the foot in this for full fifteen minutes, gently massaging the corn parts. (Less time will not give the desired results.) Repeat this each night until the cure is permanent. The effect will be a revelation. The pain goes instantly and the foot feels as good as could be with joy. Corns and calluses can be peeled right off. Blisters are reduced to normal and inflammation drawn out. Sorely and smelly feet, swollen and tender feet need but a few treatments. Calceola was formerly confined to the use of the foot but can now be bought by the general public. Any druggist has it in stock or will quickly get it from his wholesale house. A twenty-five cent package is said to be sufficient to cure the worst foot.—Adv.

Although many promises of protection are made, the Government is unable to keep them. It is regarded as unsafe further to weaken the local garrison here, and the other troops scattered through the country are compelled to concentrate their attention in unbolting the Government in the State

FAR OFF ACHILL ISLAND TO HAVE BENEFIT TO-NIGHT.

Entertainment to Be Given in the
Amsterdam Opera House to Aid
Fund of Father Joyce.

Fathers and mothers and sons and daughters from the County Mayo will be out in force to-night at the Amsterdam Opera House, No. 24 West Forty-fourth street, where an entertainment and reception will be conducted to aid the fund which is being raised by Rev. P. J. Joyce of the Atlantic swept Island of Achill, Ireland, for the erection of a church and trade schools in that lonely but interesting spot.

The island of Achill is off the coast of Mayo and has about 5,000 inhabitants. Most of these speak pure Gaelic and many of the old traditions are still kept alive there. The people are desperately poor. The island is somewhat barren and many of the men go to Scotland and England in the harvest season to earn a little money to keep their families alive during the remainder of the year.

MAGISTRATE FRESCHI CONTINUED BY MAYOR.

Mayor Gaynor to-day reappointed John Freschi a temporary Magistrate, to fill the vacancy caused by the continued sickness of Magistrate Crane. While retaining Mr. Freschi, the Mayor took occasion to congratulate him on his magisterial conduct during the several periods that he has reappointed him. The reappointment period is for thirty days.

The Board of Magistrates recently resolved that Acting Magistrate Freschi should be continued in the magisterial capacity.

It is said that Magistrate Crane's condition is such that he may never be able to return to the bench.

HONOR NILS POULSON WHILE HE LIES DYING.

Peace Congress, Shortly Before
Noted Engineer's End, Hears
Praise of His Work.

Nils Poulson, founder of the Hecla Iron Works and one of the best known manufacturers in the country, died yesterday afternoon at his home at Bay Ridge Parkway and Eighty-eighth street, Brooklyn. Almost at the same time, Carl Lorentzen, secretary of the Scandinavian-American Society, unaware that the noted engineer was dying, was speaking at the Peace Congress at Baltimore of Mr. Poulson's gift of \$100,000 to the society to further closer relations between the Scandinavian nations and the United States.

During the past six years Mr. Poulson had become widely known through his study of plans to relieve the traffic congestion on Brooklyn Bridge. He offered to bear the \$25,000 cost of the experiment if his idea proved a failure.

Born in Denmark in 1843, Mr. Poulson came here in 1864, worked as a mason, then as a draughtsman in the Government architect's office at Washington.

TAFT TO PHILADELPHIA.
President Will Be the Guest of Physicians To-Night.

PHILADELPHIA, May 4.—President Taft will be the guest of honor at a dinner and reception to be given to-night by the Philadelphia Medical Club. Many physicians from different parts of the country will be here to do honor to the President. The function will be in the nature of a testimonial of the appreciation of the profession for the President's interest in the science and for many things he has done, not only as President, but as Secretary of War and Governor of Cuba and the Philippines, to assist the forward movement

of medicine in its fight to conquer disease. The President will arrive at 7 P. M. and will be escorted to the Bellevue-Stratford Hotel by the First Troop, Philadelphia City Cavalry. There will be no speeches at the dinner, but at the reception which follows addresses will be made by the President, Dr. S. W. Mitchell and Dr. W. L. Rodman of this city.

BRILL CLOTHES

READY TO WEAR. WELL MADE.

We have used for the benefit of Men
the Power which has come to us
through the patronage of men.

Two Remarkable Propositions
in Low-priced Good Clothes.

Spring Suits at \$10. Normally, as the cloth and labor markets are today, only the poorest apology for a suit can be produced to sell at \$10. The better looking it is, at time of purchase, the worse counterfeit it turns out under test of wear. Here's something different, a better value specially produced by availing of special opportunities. The cloth of which these suits are made, usually goes into suits costing several dollars more. Better ability in designing and workmanship have produced a better style. Linings, trimmings, all the little details that count, have received thorough attention. Result—suits that are fifty per cent better, in every respect, than any you've yet seen at \$10.

Browns, tans, grays, blues, mixtures. Special models for men and young men.

Spring Suits at \$15. The BRILL-SPECIAL: in distinct models for men and young men. Fit to march under the Twenty dollar standard. There's a concentration of capacity and determination back of these suits; a determination to get the business of every \$15 man by giving him the best values; to get the business of \$18 and \$20 men by enabling them to make important savings. And we're succeeding. BRILL-SPECIAL Suits, well cut and thoroughly tailored, are ready in a wide range of browns, tans, grays, plain blue serges, blue on blue, pencil stripe blues, and neat mixtures. The most stylish, serviceable suits produced to sell at so moderate a price.

SUITS with unpadded coats and soft roll fronts, and the sober styles that survive all fashion changes, are here, \$20 to \$40. The Brill service covers the whole wide field of men's wear. No man knows how big a return in quality, comfort and value his money will bring, until he has seen Brill clothes.

Lest You Forget

Lots of times between May and October, when you'll need a light weight overcoat. Just now we're offering a very special lot at \$10; with a fine regular line from \$15 to \$35.

Bully Blue Suits

"True Blue" serge, all wool, fine twill yarn, woven two-ply both ways, color-fast, \$15. Oxford, coronation and Copenhagen blue worsteds, plain self and pencil stripes, \$18 to \$35.

Stetson Hats

All the new styles in derbies, self-conforming or stiff, \$3.50 and \$5. Soft hats, \$3.50 to \$12. There are no better hats made. A special lot (not Stetson's) of \$3, \$4 and \$5 hats for \$1.95.

School Suits and Play Suits

The economical clothing of the boy, no matter what his size, is no problem to the mother who patronizes a Brill store. These are two special offerings, for school and for best wear:

LITTLE CORPORAL 2 pair Knicker suit; all wool, double breasted and Norfolk styles, in a big range of new Spring patterns, sturdily and stylishly tailored; usual \$6.50 and \$7 value..... **\$4.95**

Play Suits The most practical and economical made. At \$1, Indian, Major, Cowboy Baseball (blue or gray), Jack Tar (white or tan), Squaw (for girls). At \$1.25, Captain, Scout (with hat, \$1.75). At \$1.50, Big Chief, Mexican, Senorita (for girls). At \$3, Special Cowboy Suit, with hat, belt, pistol holster, lariat and bandana neckerchief

Wanamaker Basement, Old Building.

A Very Full Five Dollars' Worth in Wanamaker-Special Boys' Suits

All-wool cloths to begin with, tried and proven by our own chemical test. We take nobody's word on this point. Acid is the only unprejudiced judge. We want to know beforehand if any cotton threads are woven in, not wait for sun and strain to show them up. Then silk stitching for strength, selected linings, double stitched seams, wide turn-ups and all the other precautions that fifty years of clothing boys have taught us are necessary to satisfactory wear.

We provide the same quality for boys of all ages from 4 to 17; Russian and sailor blouse styles for the little fellows and double-breasted and Norfolk jackets for the larger boys. Materials are fancy chevrons in new and attractive patterns, and sun-proof blue serge. \$5 the suit.

BOYS' REEFERS of light-weight are in demand. Here in all-wool chevrons, at \$3.85.

Wanamaker Basement, New Building.
